

Printronix P8000H/P7000H HD Cartridge Consumables

The Printronix Cartridge Series of Line Matrix Printers provides a flexible design, adaptable functionality and manageable savings including the lowest cost for consumables and total cost of ownership.

- **LONGER LASTING INK** = Fewer ribbon changes yield more productivity and contribute to a lower cost of ownership.
- **LEADING EDGE RIBBON TECHNOLOGY** = Less IT interventions reduce downtime, with a patented ribbon jam prevention system. The high-density ribbon yields a longer life and a darker print quality.
- **EMBEDDED MICROCHIP** = Provides precise, integrated control over ribbon life, print quality and operating costs. Productivity is improved by preventing interruptions of long print runs.
- **CARTRIDGE RIBBON DESIGN** = With the self contained cartridge ribbon, changing ribbons is easier, cleaner and faster when compared to spool ribbons and laser toner cartridges.
- **BACKWARDS COMPATIBILITY** = Ribbon cartridges for the P8000H/HD are backwards compatible with P7000H/HD printers for reduced inventory management cost and simplified ordering.
- **ENVIRONMENTAL ADVANTAGE** = Printronix cartridge ribbons are far more sustainable than laser toner cartridges as they contribute substantially less consumables waste, and allow for printing on paper containing a higher % of recycled content.
