

## **PT Berlian Sistem Informasi**

### **INTRODUCTION**

Founded in 1996, PT Berlian Sistem Informasi (BSI) is a joint venture between Mitsubishi Corporation Japan and an Indonesian Shareholder. As a one-stop IT solutions provider, BSI's mission is to provide an appropriate IT solution to their clients using their 19 years of experience in the IT industry for both application and infrastructure areas.

### **PROBLEM**

Being a dot matrix user, BSI realized that they needed a faster, yet quieter printer to handle the monthly bulk printing quantities. Looking at both laser and line matrix printers, BSI eventually chose the line matrix printer. As a result of that choice they have been loyal Printronix customers for over 10 years now.

### **SOLUTION**

Presently, BSI owns 23 units of P8000 series printers which are placed within Production and Administration departments. Among many tasks they perform, they also serve to print invoices and letters on multi-part forms for the national police force. So far, the printers have been able to efficiently handle printing a minimum of 5000 documents a monthly in a quiet mode.

## **RESULTS**

BSI is pleased with the printing performance from its fleet of Printronix P8000 printers. Not only has it minimized printing duration because of its efficient speed, it is also user-friendly; delivering an ease-of-understanding on executing print jobs. In a world of expensive to maintain laser printers, it is smart to consider the latest advancement in line matrix printing before choosing a print technology. For this reason, BSI is proud to have chosen Printronix as its reliable printing solutions partner, providing high returns on savings from this smart investment.

## **About Printronix**

Founded in 1974, Printronix is a leader in mission-critical printing solutions, offering the most reliable range of industrial printers, supplies and associated spare parts in the industry. The company provides the two most trusted brands in industrial and supply-chain printing, Printronix and TallyGenicom, known by manufacturing, distribution and retail enterprises across the globe. The combined brand portfolio comprises high-quality line matrix printers delivering verifiable printing outputs and world-class use and ruggedness.
