

# Genuine Factory Parts Reliability You Can Trust. Guaranteed.

## Trust Printronix Genuine Factory Parts for Guaranteed Performance

Reliability counts, that's why you can trust Printronix genuine factory parts to be engineered with the same quality and performance that go into our printers. With a reliability guarantee, Printronix genuine parts mean less downtime and service calls—saving you time and money.

LESS DOWNTIME

FEWER SERVICE CALLS

LONGER PARTS LIFETIME

## Genuine Quality Comes From the Factory

Printronix parts undergo precise manufacturing, factory fine-tuning and rigorous testing according to ISO 9001 Factory Certification standards to guarantee exceptional reliability. Only genuine parts from Printronix can ensure genuine factory quality. Critical Printronix parts that should only come from Printronix's factory include:

- ◆ Shuttle assembly
- ◆ Power supply
- ◆ Ribbon motion & weld sensors
- ◆ Control panel assembly
- ◆ Controller board
- ◆ Hammerbank assembly

\* Printronix Genuine Factory Refurbished Parts are only available in select regions. \*\* If a Printronix Genuine Factory Spare part fails within 12 months or if a Printronix Genuine factory refurbished spare part fails within 90 days, Printronix will replace it for free.

## Don't Settle for Second-Hand Parts, Your Printer Will Thank You

Aftermarket and used parts might seem like a cost-effective option, however quality is often sacrificed. Lower-quality materials may be used and testing can be limited, resulting in equipment malfunction and downtime.

## Printronix Genuine Factory Refurbished Parts Offer a Cost-Effective Alternative

Printronix refurbished factory parts are a highly reliable, trusted and budget-friendly option. You can trust the same genuine quality, manufacturing and performance that are in all of our printers. Our refurbished factory parts come with a 90-day warranty and parts guarantee.

## Learn More About What Printronix Has to Offer
