

ON-SITE PRINTER INSTALLATION

Ensuring reliability and high performance from day one

You did not buy a powerful printer to let it perform less than optimally. For this reason, Printronix offers on-site professional installation with a certified technician to ensure high-quality print output and maximum performance for your Printronix printer.

\$299
Per Printer*

We always go the extra mile.

Our printer installation services include:

Printer Setup

Unbox, power up and connect the printer to Ethernet. Install consumables and run printer self-test diagnostics.

Configuration & Tests

Configure printer using customer supplied interface parameters, run customers' applications, test functions and print output quality.

Training

Demonstrate printer functionalities, configuration options, how to load the ribbon, and maintenance procedures.

Request Printronix on-site printer installation at store.printronix.com and get your printer up and running. Worry free!
